What about a 40 acre site between farms for sale on Monterey near Coyote? Looks like a flat grassy site where RV could go. Electricity nearby probably not much else.

Roses can require a lot of maintenance and require regular watering. Maybe consider a succulent garden.

I had a scammer call me up asking where I was born and my birthdate. Obvious he was trying some fraud and had come against a problem. I gave wrong info and hung up.

I do not have a pay pal account but someone opened a pay pal account in my name. I Reported this to PayPal's fraud team but have had no response. How should I move forward to protect myself?

20:25:28 From Wyman to Everyone:

For paypal, rather than linking to checking acct, have it linked to a credit card. is that safer to link to credit card?

20:30:47 From DavidA.Gomez | D10 to Everyone:

Linking a PayPal account to a credit card that can be turned off and on is a good idea. When you're going to make a purchase, turn the card on. Once the payment has processed turn it back off.

I got a notice from Norton that millions of Social Security accounts were hacked and mine was one. Every ISP I've ever had has had data hacked.

20:37:05 From Smita to Everyone:

Basically everyone's social security number is out there at this point.

20:43:59 From Smita to Everyone:

With Zelle, you can also send just a small amount -- i.e. \$5 -- just to make sure you've got the right info.
